- ARCPRO Heavy Duty Barrier Netting made of 100% polypropylene is available in a wide variety of stock and custom roll sizes. This 1" mesh is available in a 225 or 150-pound bursting strength. We have the correct solution to any size barrier net requirement.
- Call 888-229-PARTS(7278) for netting solutions and pricing today!

**ARCPRO-POLY 1000** style netting is in use at more golf facilities than any other net in the country. Rope bordered to your exact pole and cable centers, "Snap Hook Installation" is a breeze. UV Impregnated, high tensility polyester and lock-tight knit construction gives ARCPRO Netting years of superior performance. ARC-POLY 1000 will not turn gray, rot or mildew, and carries a 5 year pro rated manufacturer's warranty.

**ARCPRO-POLY 1000 Specification Information:**

Product: 1" Mesh Golf Netting  
 Fiber: Polyester  
 Color: Black  
 Construction: Warp Knit "Knotless"  
 Break Strength: 100 lbs.  
 Burst Strength: 300 lbs.  
 UV Stabilizer: Impregnated  
 Average Field Life: 10 to 15 Years  
 Approx. Percent Solid: 8 %

**ARCPRO-POLY 2000** Bordered to fit for quick installation, this net has a bursting strength of 450 lbs. The UV impregnated high tensility polyester engineered fiber exclusively manufactured for ARC. With a twist in the yarns, tensile strength increases while maintaining a low coefficient of drag and minimal wind load. This ultimately translates to a stronger net without added support structure. With a 10-year manufacturer's warranty, ARC-Poly 2000 has proven its longevity as high as 150' above ground level.

**ARC-POLY 2000 Specification Information:**

Product: 1" Mesh Golf Range Netting  
 Fiber: Hi-Tensility Polyester  
 Color: Black  
 Construction: Warp Knit "Knotless"  
 Break Strength: 150 lbs.  
 Burst Strength: 450 lbs.  
 UV Stabilizer: Impregnated Black Carbon  
 Average Field Life: 10 to 15 Years  
 Approx. Percent Solid: 12 %
